Subject: Proposals by the Commission for Joint Technology Initiatives established under Article 187 TFEU
Proposal for a Council regulation on the Innovative Medicines Initiative 2 Joint Undertaking
- General Approach

I. INTRODUCTION

2. This proposal for a public-private partnership builds on the Innovative Medicines Initiative Joint Undertaking (IMI JU) established under the 7th Research Framework Programme. Its objective is to improve the drug development process by supporting more efficient research and development cooperation among academia, small and medium enterprises and the biopharmaceutical industry, in order to deliver better and safer medicines for patients.

3. The European Parliament's Committee on Industry, Research and Energy (ITRE) appointed Ms Teresa RIERA MADURELL (SD) as the Rapporteur on this proposal. The ITRE Committee is expected to vote on its opinion on 9 January 2014.

4. The opinion of the European Economic and Social Committee is still pending.

II. WORK WITHIN THE COUNCIL

1. Following the work since September 2013 within the Research Working Party, resulting to some amendments to the initial proposal, the Permanent Representatives Committee on 22 November 2013 reached an agreement in principle on the Presidency compromise text included in annex to this note.

2. It should be noted that the Commission has entered a general reservation on the whole text, pending the opinion of the European Parliament. DK has a parliamentary scrutiny reservation on the whole text.

III. CONCLUSION

In the light of the above, the Council is invited to consider the compromise proposal presented by the Presidency (in Annex) with a view to reaching a General Approach at the Council (Competitiveness) meeting on 2-3 December 2013.
PROPOSAL FOR A COUNCIL REGULATION ON THE INNOVATIVE MEDICINES
INITIATIVE 2 JOINT UNDERTAKING

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 187
and the first paragraph of Article 188 thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the European Parliament¹,

Having regard to the opinion of the Economic and Social Committee²,

Whereas:

(1) Public-private partnerships in the form of Joint Technology Initiatives (JTIs) were initially
provided for in Decision No 1982/2006/EC of the European Parliament and of the Council of
18 December 2006 concerning the Seventh Framework programme of the European
Community for research, technological development and demonstration activities

(2) Council Decision No 2006/971/EC of 19 December 2006 concerning the Specific Programme
‘Cooperation’ implementing the Seventh Framework programme of the European Community
for research, technological development and demonstration activities (2007-2013)⁴ identified
specific public-private partnerships to be supported, including a public-private partnership on
Innovative Medicines Joint Technology Initiative between the Union and the European
Federation of Pharmaceutical Industries and Associations (hereinafter "EFPIA").

(3) Europe 2020 Strategy\(^5\) underscores the need to develop favourable conditions for investment in knowledge and innovation so as to achieve smart, sustainable and inclusive growth in the Union. Both the European Parliament and the Council have endorsed this strategy.

(4) Regulation (EU) No …/2013 of the European Parliament and of the Council of … 2013 establishing Horizon 2020 - The Framework Programme for Research and Innovation (2014-2020)\(^6\) aims to achieve a greater impact on research and innovation by combining Horizon 2020 Framework Programme and private sector funds in public-private partnerships in key areas where research and innovation can contribute to the Union's wider competitiveness goals and help tackle societal challenges. Union involvement in those partnerships could take the form of financial contributions to joint undertakings established on the basis of Article 187 of the Treaty under Decision No 1982/2006/EC.

(5) In accordance with Decision (EU) No …/2013 of the Council of … 2013 establishing the Specific Programme implementing Horizon 2020 (2014-2020)\(^7\) further support should be provided to joint undertakings established under Decision No 1982/2006/EC under the conditions specified in Decision (EU) No […]/2013..

(6) The Innovative Medicines Initiative (hereinafter "IMI") Joint Undertaking set up by Regulation (EC) No 73/2008 of the Council of 20 December 2007 setting up the IMI Joint Undertaking\(^8\) has demonstrated the effective mobilisation of resources by bringing together several partners from the pharmaceutical industry, academia, small and medium-sized enterprises (hereinafter "SMEs"), patient organisations and regulators.

\(^8\) OJ L 30 of 4.2.2008 [FP7 JTI JU Regulation]
(7) It has also stepped up cooperation between stakeholders in the health research and innovation field by allowing access to other partners’ expertise and increasing the collaboration between the pharmaceutical industry and other stakeholders in the Union by developing comprehensive research agendas and horizontal policy coordination. No other European or national programme has enabled cross-company collaboration within the pharmaceutical sector on the scale that has been achieved by IMI. The interim evaluation of the IMI Joint Undertaking underlined that it enables mutual learning and provides the opportunity to improve the reciprocal understanding of the stakeholders, which benefits all parties and has significantly contributed to the transition towards an open innovation model in biopharmaceutical research.

(8) Research related to the future of medicine shall be undertaken in areas where combination of societal, public health and biomedical industry competitiveness goals requires pooling of resources and fostering collaboration between the public and private sectors, with the involvement of SMEs. The scope of the initiative should be expanded to all areas of life science research and innovation. The areas would be of public health interest, as identified by the World Health Organisation report on priority medicines for Europe and the World, which is currently being updated with the new version expected to be released in 2013. The initiative should consequently seek to involve a broader range of partners, including mid-caps, from different sectors (e.g. biomedical imaging, medical information technology, diagnostic and/or animal health industries). A wider participation would help to advance the development of new approaches and technologies for the prevention, diagnosis and treatment of diseases with high impact on public health.

9 SEC(2011) 1072 final
(9) The continuation of this initiative should also take into account the experience acquired from the operations of the IMI Joint Undertaking including the results of its interim evaluation and stakeholders' recommendations\textsuperscript{10} and be implemented using a more fit-for-purpose structure and rules in order to enhance efficiency and ensure simplification at operational level. To this effect, the Innovative Medicines Initiative 2 (hereinafter "IMI2") Joint Undertaking should adopt financial rules specific to its needs in accordance with Article 209 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union\textsuperscript{11}.

(10) The private Members to the IMI2 Joint Undertaking have expressed in writing their agreement to pursue the research activities in the area of the IMI2 Joint Undertaking within a structure better adapted to the nature of a public-private partnership. It is appropriate that the private-sector Members to the IMI2 Joint Undertaking accept the Statutes contained in the Annex by means of a letter of endorsement.

(11) As a means to further develop IMI2 Joint Undertaking's objectives, membership should be open to other legal entities. Moreover, legal entities interested in supporting IMI2 Joint Undertaking’s objectives in their specific areas of research should be offered the possibility to become Associated Partners in the IMI2 Joint Undertaking.

(11bis) Any eligible institution may become a participant or a coordinator in the selected projects.

(12) In order to achieve its objectives, the IMI2 Joint Undertaking should provide financial support to participants mainly in the form of grants following open and competitive calls for proposals.

\textsuperscript{10} \url{http://ec.europa.eu/research/consultations/life_science_h2020/consultation_en.htm}
(12bis) The participants should be fully informed about the totality of applicable legal and procedural conditions, including on those laid down on the basis of Article 1(3) of Regulation (EU) No … [Rules for participation and dissemination in Horizon 2020] especially regarding eligibility for funding and exploitation and dissemination of results. These conditions should be consistent, reasonable and should ensure equitable and fair treatment of participants regarding ownership of and access to the results generated within IMI2 projects.

(13) Contributions from the private Members should relate to the administrative costs of the IMI2 Joint Undertaking and, together with the Associated Partners for their specific area of research, to the co-financing required to carry out research and innovation actions supported by the IMI2 Joint Undertaking.

(15) The Union financial contribution should be managed in accordance with the principle of sound financial management and with the relevant rules on indirect management set out in Regulation (EU, Euratom) No 966/2012 and Commission delegated Regulation (EU) No 1268/2012 of 29 October 2012 on the rules of application of Regulation (EU, Euratom) No 966/2012\(^{13}\).

(16) Audits of recipients of Union funds under this Regulation should be carried out in such a manner that the administrative burden is reduced, in compliance with Regulation (EU) No […]/2013 [Horizon 2020 Framework Programme].

\(^{12}\) OJ … [H2020 RfP]
\(^{13}\) OJ L 362 31.12.2012, p. 1
(17) The financial interests of the Union and of the other Members of the IMI2 Joint Undertaking should be protected through proportionate measures throughout the expenditure cycle, including the prevention, detection and investigation of irregularities, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, administrative and financial penalties in accordance with Regulation (EU, Euratom) No 966/2012.

(18) The Commission's internal auditor should exercise the same powers over the IMI2 Joint Undertaking as those exercised in respect of the Commission.

(19) In accordance with Article 287(1) of the Treaty on the Functioning of the European Union, the constituent instrument of bodies, offices or agencies set up by the Union may preclude the examination of the accounts of all revenue and expenditure of those bodies, offices or agencies by the Court of Auditors. In accordance with Article 60(5) of Regulation (EU, Euratom) No 966/2012, the accounts of the bodies under Article 209 Regulation (EU, Euratom) No 966/2012 are to be examined by an independent audit body which is to give an opinion inter alia on the reliability of the accounts and the legality and regularity of the underlying transactions. Avoidance of duplication of the examination of the accounts justifies that the accounts of the IMI2 Joint Undertaking should not be subject to examination by the Court of Auditors.

(19bis) The IMI2 Joint Undertaking should operate in a transparent way providing all relevant available information to its appropriate bodies as well as promoting its activities accordingly.

(20) In accordance with the principles of subsidiarity and proportionality as set out in Article 5 of the Treaty on European Union, the objectives of the IMI2 Joint Undertaking in strengthening industrial research and innovation across the Union cannot be sufficiently achieved by the Member States and can therefore, by reason of avoiding duplication, retaining critical mass and ensuring that public financing is used in an optimal way, be better achieved by the Union. This Regulation confines itself to the minimum required in order to achieve those objectives and does not go beyond what is necessary for that purpose.
The IMI Joint Undertaking was set up for a period up to 31 December 2017. The IMI2 Joint Undertaking should provide continued support to the Innovative Medicines research programme by enlarging the scope of the activities under a modified set of rules. The transition from the IMI Joint Undertaking to the IMI2 Joint Undertaking should be aligned and synchronized with the transition from the Seventh Framework programme to the Horizon 2020 Framework Programme to ensure optimal use of the funding available for research. In the interest of legal certainty and clarity, Council Regulation (EC) No 73/2008 should therefore be repealed and transitional provisions should be set out.

It is appropriate to ensure a smooth transition without interruption to align the duration of this Joint Undertaking with the Council Regulation laying down the multiannual framework for the years 2014-2020. Therefore, this Joint Undertaking should apply as from 1 January 2014.
