Proposal for a Council Regulation on the Bio-Based Industries Joint Undertaking
- General Approach

I. INTRODUCTION

2. The main focus of this JTI will be on the transformation of non-edible parts of plants (e.g. wood, agricultural and forestry residues) and biodegradable wastes into bio-based products and biofuels.
3. The European Parliament's Committee on Industry, Research and Energy (ITRE) appointed Mr Lambert van NISTELROOIJ as the rapporteur on this proposal. The ITRE Committee is expected to vote on its opinion on 9 January 2014.

4. The opinion of the European Economic and Social Committee is still pending

II. WORK WITHIN THE COUNCIL

1. Following the work since September 2013 within the Research Working Party, resulting to some amendments to the initial proposal, the Permanent Representatives Committee on 22 November 2013 reached an agreement in principle on the Presidency compromise text included in annex to this note. In comparison with the previous document (15994/13), the new text is indicated in **bold** and deletions in strikethrough.

2. It should be noted that the Commission has entered a general reservation on the whole text, pending the opinion of the European Parliament. Furthermore, DK has a parliamentary scrutiny reservation on the whole text.

III. CONCLUSION

In the light of the above, the Council is invited to consider the compromise proposal presented by the Presidency (in Annex) with a view to reaching a General Approach at the Council (Competitiveness) meeting on 2-3 December 2013.

Regulation (EU) No …/2013 of the European Parliament and of the Council of … 2013 establishing Horizon 2020 - The Framework Programme for Research and Innovation (2014-2020) aims to achieve a greater impact on research and innovation by combining Horizon 2020 Framework Programme and private-sector funds in public-private partnerships in key areas where research and innovation can contribute to the Union's wider competitiveness goals and help tackle societal challenges. The involvement of the Union in those partnerships may take the form of financial contributions to joint undertakings established on the basis of Article 187 of the Treaty under Decision No 1982/2006/EC.

In accordance with Decision (EU) No …/2013 of the Council of … 2013 establishing the Specific Programme implementing Horizon 2020 (2014-2020) support may be provided to joint undertakings established in the Horizon 2020 Framework Programme under the conditions specified in that Decision.

Europe 2020 Strategy underscores the need to develop favourable conditions for investment in knowledge and innovation so as to achieve smart, sustainable and inclusive growth in the Union. Both European Parliament and Council have endorsed this strategy.

The Bio-based Industries Consortium (hereinafter "BIC") developed a vision paper and a Strategic Innovation and Research Agenda, based on extensive consultation with public and private stakeholders. The Strategic Innovation and Research Agenda describes the main technological and innovation challenges that need to be overcome in order to develop sustainable and competitive bio-based industries in Europe and identifies research, demonstration and deployment activities to be carried out by a Joint Technology Initiative on "Bio-based Industries".

(7) BIC is a non-profit organisation that was created to represent the industry group that supports the Joint Technology Initiative on Bio-based Industries. Its members cover the entire bio-based value chain and consist of large industries, small and medium-sized enterprises (SMEs), regional clusters, European trade associations, and European Technology Platforms. The aim of BIC is to ensure and promote the technological and economic development of the bio-based industries in Europe. Any interested stakeholders along the bio-based value chain may apply for membership. It applies general principles of openness and transparency regarding membership, ensuring a wide industrial involvement.

(7bis) Any eligible institution may become a participant or a coordinator in the selected projects.

(8) The Commission Communication of 13 February 2012 "Innovating for Sustainable Growth: A Bioeconomy for Europe"\(^8\) and in particular its Action Plan calls for a public private partnership to support the establishment of sustainable and competitive bio-based industries and value chains in Europe. In view of moving towards a post-petroleum society, the Communication aims to integrate better biomass producing and processing sectors in order to reconcile food security and natural resource scarcity and environmental objectives with the use of biomass for industrial and energy purposes.

(9) The Commission Communication of 10 October 2012 "A Stronger European Industry for Growth and Economic Recovery"\(^9\) confirms the strategic importance of bio-based industries for the future competitiveness of Europe, as identified in the Commission Communication of 21 December 2007 "A lead market initiative for Europe"\(^10\) and stresses the need for a Joint Technology Initiative on "Bio-based Industries".

\(^8\) COM(2012) 60.
Bio-based industries and their value chains are facing complex and substantial technology and innovation challenges. As a nascent sector, bio-based industries have to overcome the dispersion of technical competences and the limited publically available data on real resource availability in order to build sustainable and competitive value chains. In order to tackle these challenges, critical mass has to be achieved in a focused and coherent way at European level in terms of scale of activity, excellence, and potential for innovation.

The Joint Technology Initiative on Bio-based Industries should mitigate the different types of market failures that discourage private investment into pre-competitive research, demonstration and deployment activities for bio-based industries in Europe. In particular, it should ascertain the availability of reliable biomass supply taking into account other competing social and environmental demands, and support the development of advanced processing technologies, large scale demonstration activities and policy instruments, thus reducing the risk for private research and innovation investment in the development of sustainable and competitive bio-based products and biofuels.

The Joint Technology Initiative on Bio-based Industries should be a public-private partnership aiming at increasing investment in the development of a sustainable bio-based industry sector in Europe. It should provide environmental and socio-economic benefits for European citizens, increase the competitiveness of Europe and contribute to establishing Europe as a key player in research, demonstration and deployment of advanced bio-based products and biofuels.

The objective of the Joint Technology Initiative on Bio-based Industries is to implement a programme of research and innovation activities in Europe that will assess the availability of renewable biological resources that can be used for the production of bio-based materials and on that basis support the establishment of sustainable bio-based value chains. These activities should be carried out through collaboration between stakeholders along the entire bio-based value chains, including primary production and processing industries, consumer brands, SMEs, research and technology centres and universities.
(14) The ambition and scope of the objectives of the Joint Technology Initiative on Bio-based Industries, the scale of the financial and technical resources that need to be mobilized, and the need to achieve effective coordination and synergy of resources and funding, require the involvement of the Union. Therefore a Joint Undertaking for the implementation of the Joint Technology Initiative on Bio-based Industries (hereinafter the BBI Joint Undertaking) should be established as a legal entity.

(15) The objective of the BBI Joint Undertaking should be achieved through support of research and innovation activities by using resources from the public and private sectors. To this end, the BBI Joint Undertaking should organise calls for proposals for supporting research, demonstration and deployment activities.

(16) To achieve maximum impact, the Bio-Based Industries Joint Undertaking should develop close synergies with other Union programmes in areas such as education, environment, competitiveness and SMEs, and with the Cohesion Policy funds and Rural Development Policy, which can specifically help to strengthen national and regional research and innovation capabilities in the context of smart specialisation strategies.

(17) The founding members of the BBI Joint Undertaking should be the Union and BIC.

(18) The rules for the organisation and operation of the BBI Joint Undertaking should be laid down in the Statutes of the BBI Joint Undertaking as part of this Regulation.

(19) BIC has expressed, in writing, its agreement to pursue the research activities in the area of the BBI Joint Undertaking within a structure well adapted to the nature of a public-private partnership. It is appropriate that BIC accedes to the Statutes set out in Annex to this Regulation by signing a letter of endorsement.

(20) In order to achieve its objectives, the BBI Joint Undertaking should provide its financial support to the actions through open and transparent procedures mainly in the form of grants to participants following open and competitive calls.
(21) Contributions from the private Members should not only be limited to the administrative costs of the BBI Joint Undertaking and to the co-financing required to carry out research and innovation actions supported by the BBI Joint Undertaking.

(22) Their contributions should also relate to additional activities to be undertaken by the private Members, as specified in an additional activities plan; in order to get a proper overview of the leverage effect those additional activities should represent contributions to the broader Joint Technology Initiative on Bio-Based Industries.

(24) The Union financial contribution to the BBI Joint Undertaking should be managed in accordance with the principle of sound financial management and with the relevant rules on indirect management set out in Regulation (EU, Euratom) No 966/2012 and Commission delegated Regulation (EU) No 1268/2012 of 29 October 2012 on the rules of application of Regulation (EU, Euratom) No 966/2012\textsuperscript{12}.

(25) Audits of recipients of Union funds under this Regulation should be carried out in such a manner that the administrative burden is reduced, in compliance with Regulation (EU) No …/2013 [the Horizon 2020 Framework Programme].

(26) The financial interests of the Union and of the other members of the BBI Joint Undertaking should be protected through proportionate measures throughout the expenditure cycle including the prevention, detection and investigation of irregularities, the recovery of funds lost, wrongly paid or incorrectly used and, where appropriate, administrative and financial penalties in accordance with Regulation (EU, Euratom) No 966/2012.

\textsuperscript{11} OJ … [H2020 RfP]
(27) The Commission's internal auditor should exercise the same powers over the BBI Joint Undertaking as those exercised in respect of the Commission.

(28) In accordance with Article 287(1) of the Treaty, the constituent instrument of bodies, offices or agencies set up by the Union may preclude the examination of the accounts of all revenue and expenditure of those bodies, offices or agencies by the Court of Auditors. In accordance with Article 60(5) of Regulation (EU, Euratom) No 966/2012, the accounts of the bodies under Article 209 Regulation (EU, Euratom) No 966/2012 are to be examined by an independent audit body which is to give an opinion inter alia on the reliability of the accounts and the legality and regularity of the underlying transactions. Avoidance of duplication of the examination of the accounts justifies that the accounts of the BBI Joint Undertaking should not be subject to examination by the Court of Auditors.

(28bis) The BBI Joint Undertaking should operate in a transparent way providing all relevant available information to its appropriate bodies as well as promoting its activities accordingly.

(29) In order to facilitate its establishment, the Commission should be responsible for the establishment and initial operation of the BBI Joint Undertaking until it has the operational capacity to implement its own budget.

(30) In accordance with the principles of subsidiarity and proportionality as set out in Article 5 of the Treaty on European Union, the objectives of the BBI Joint Undertaking in strengthening industrial research and innovation across the Union cannot be sufficiently achieved by the Member States and can therefore, by reason of avoiding duplication, retaining critical mass and ensuring that public financing is used in an optimal way, be better achieved by the Union; this Regulation confines itself to the minimum required in order to achieve those objectives and does not go beyond what is necessary for that purpose.

(31) It is appropriate to align the duration of this Joint Undertaking with the Council Regulation laying down the multiannual financial framework for the years 2014-2020\textsuperscript{13}. Therefore, this Joint Undertaking should apply as from 1 January 2014.
