Regional RTI Strategy

- Kärnten 2020 Zukunft durch Innovation
R&D Strategy 2013 – 2020
 - 2009: Kärnten 2020 | 2010: Europe 2020 | 2011: RTI-Strategy Austria
 - participative process, 70 stakeholder: lobby, ministeries, educational institutions, other experts (science, companies, ...)
-
- **strengthen of academia**
EDUCATION
 - **deepen of the cooperation between science and economy**
RESEARCH
 - **broaden of the innovation active entities**
INNOVATION

**ReDesign
(S3) in 2017**

Examples of Smart Specialisation

- Visibility through critical dimensions | Comittment to the fields of strength
 - **concentration of the R&D-spots**
 - Funding of granted professorships leads to the establishment of a »Technical Faculty« of the Alpen-Adria University
 - Set up of Model Research Institution »Lakeside Labs« – self organizing networked systems : no researchers employed – use of the university ressources
 - Fachhochschule Villach: comittment to one topic for int. visibility – cross-institute research initiative »applied research on aeging«(also due to regional demografic threats)
 - **Technology Parks at the interfaces between R&D, education und economy (triple-helix):**
 - »Lakeside Science & Technology Park in Klagenfurt« - Focus: ICT
 - »High Tech Campus« Technology Park in Villach - Focus: Microelectronic | Intelligent Sensors | System-Technologies
 - **Seek for collaboration with neighbouring regions:** Silicon Alps Cluster | electronic based systems between Kärnten and Steiermark

Examples of Smart Specialisation

- Internationalisation as a Chance | Strengthen and modernize education
 - **Improvement of regions attractiveness / accessibility**
»Trilateral Start-Up Eco System« together with Slovenia and Italy
 - **boost human resources**
»educational labs« Lakeside Science & Technology Park
an open research laboratory for educational concepts consisting of different self-organized initiatives (like NAWI Mix); the focus lies on projects within STEM schemes, entrepreneurship and internationality (culture|language).
