Entity Presentation (We are)

Unit RTD.G.1 – Common R&I Strategy & Foresight Service – the team of the Chief Economist of DG R&I. The unit contributes to the formulation of evidence-based and transformative research and innovation (R&I) policies to increase Europe's competitiveness, prosperity and well-being. It produces evidence on the contribution of R&I to the Commission's policies, with an objective to help minimise trade-offs between economic, social and environmental objectives and the transgression of planetary

boundaries. The unit focuses on R&I investments, innovation economics and metrics, and the economic analysis of technologies and industries and their complexity and relatedness. It also leads the strategic foresight process for R&I policy and coordinates foresight studies across the 'Foresight on Demand' Framework Contract, which is managed by the team in which the SNE will be placed. It acts as the economic service of the DG R&I and the Common Policy Centre and works closely with numerous partners in a co-creation spirit.
